

Going to the doctor? Bring DrugFinder with you!

drugfinder

Powered by Reformulary®

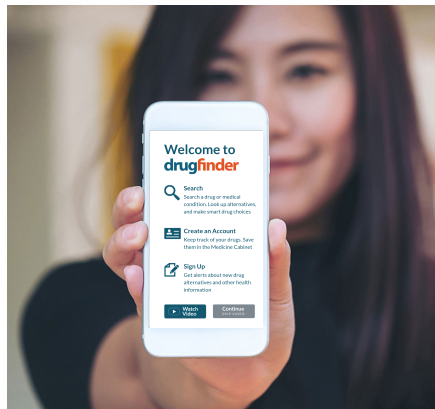

Step 1

Doctor writes you a prescription

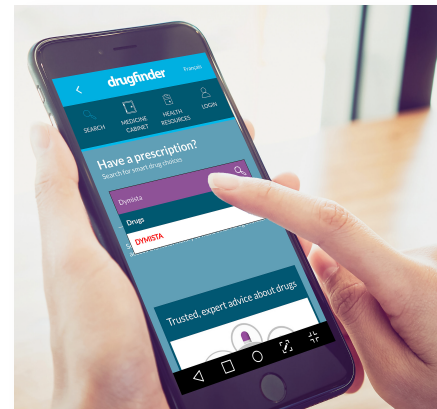

Step 2

Show the DrugFinder app to your doctor

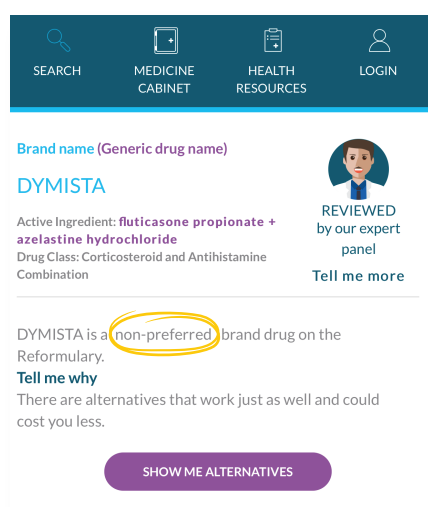

Step 3

Enter the name of the drug your doctor prescribed on DrugFinder

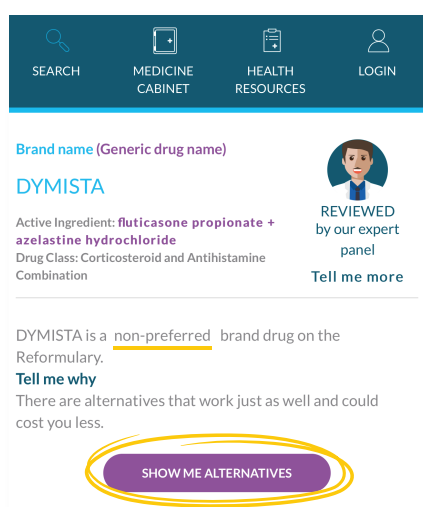

Step 4

See if the drug is preferred or non-preferred

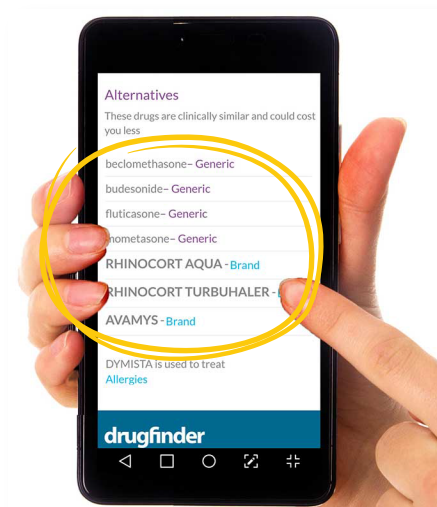

Step 5

If your drug is non-preferred, click **SHOW ME ALTERNATIVES** to see the other drugs you can take

Step 6

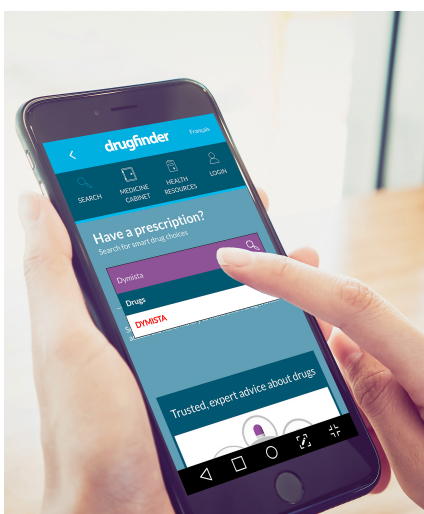

Show the other drugs (**alternatives**) to your doctor

Going to the pharmacy? Bring DrugFinder with you!

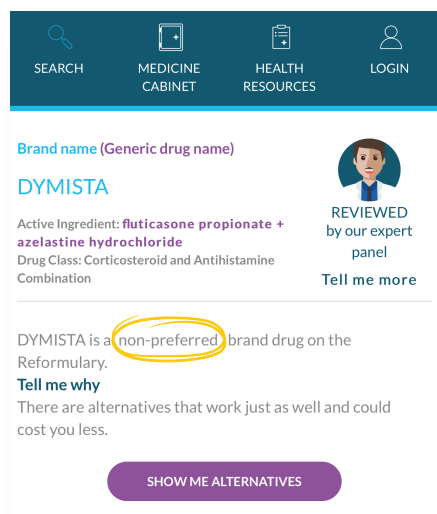

Step 1

Enter the name of your drug on DrugFinder

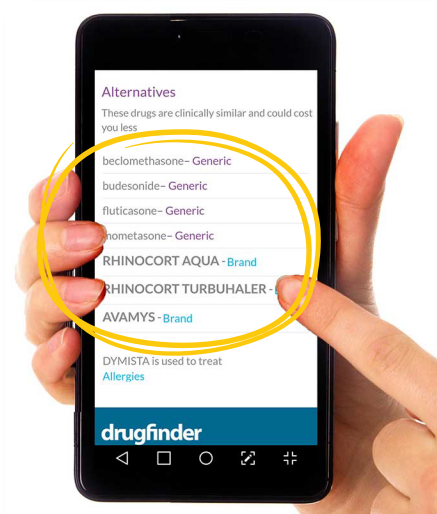

Step 2

If your drug is **non-preferred**, ask the pharmacist to **change your medication**.

Step 3

Show the other drugs (**alternatives**) to your pharmacist
